## MiPod ULTRA Recovery Ice Bath Range.

Smooth seamless surface glass fibre pool with high quality timber & stainless steel finish.  
Prestige and High Performance for 1 to 4 people.

### BIG RANGE OF OPTIONS:

OPTION 1: All in One Version delivered fully completed in a beautiful timber cabinet on a strong metal frame including....

A Hi tech ice bath chiller, big filtration system, automatic UV water quality, all inbuilt, plus a huge 13 inch Colour Touch Screen

OPTION 2: All of the above but with the fastest and most powerful ice bath chiller ever. Very quiet remote Turbo MINI chiller.

OPTION 3: In deck or in floor mounted version with all the features and equipment of version 2.

OPTION 4: Various timber or metal cladding materials and colours available on request to match your project.

### Optional Turbo Charged Version

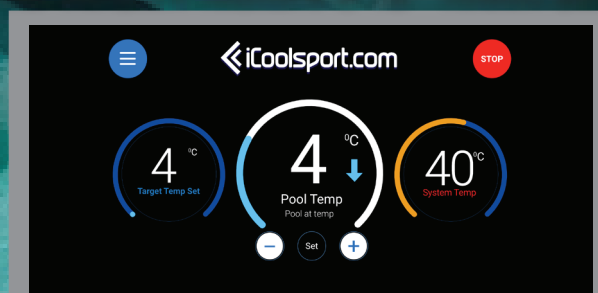

The most powerful ice bath machine ever for 1 to 4 person recovery pools and plunge spas. Very quiet operation. Cooling plus Heating versions also available.

### Top of the Line All in One Version

Nothing to add, everything is built in.  
Ultra smooth pool finish, hand moulded with no seams or joins for maximum comfort and cleanliness.  
Hand finished timber cladding.  
The ultimate experience in ice bath recovery.

All Version feature a 13" Touch screen

## IN Floor - IN Deck Versions A Fast Ultra Powerful Ice Bath Machine Premium Water Quality Equipment

**Available as a stunning floor or deck mounted version.**  
An impressive addition to any modern ice bath facility in homes and clubs.

Coupled with the new remote TurboCool Mini, the fastest and most powerful ice bath machine ever for pools from 1 to 4 persons.

10,000 watts of rapid cooling from a sophisticated hi technology machine that can be placed anywhere that is convenient within 30 meters of your pool. Very quiet fully automatic operation, controlled from a large 13 inch colour touch screen (supplied) that can be wall mounted anywhere nearby.

Reverse cycle chilling plus heating version is also available.

## The Ultimate Athlete's Bathroom.

TWO VERSIONS AVAILABLE:

1: Everything built in for quiet, efficient all in one operation. The fastest and easiest to install, just unpack, move in to place, plug in, fill with water and touch the GO button on the big 13" screen. (4,000 watt machine inbuilt).

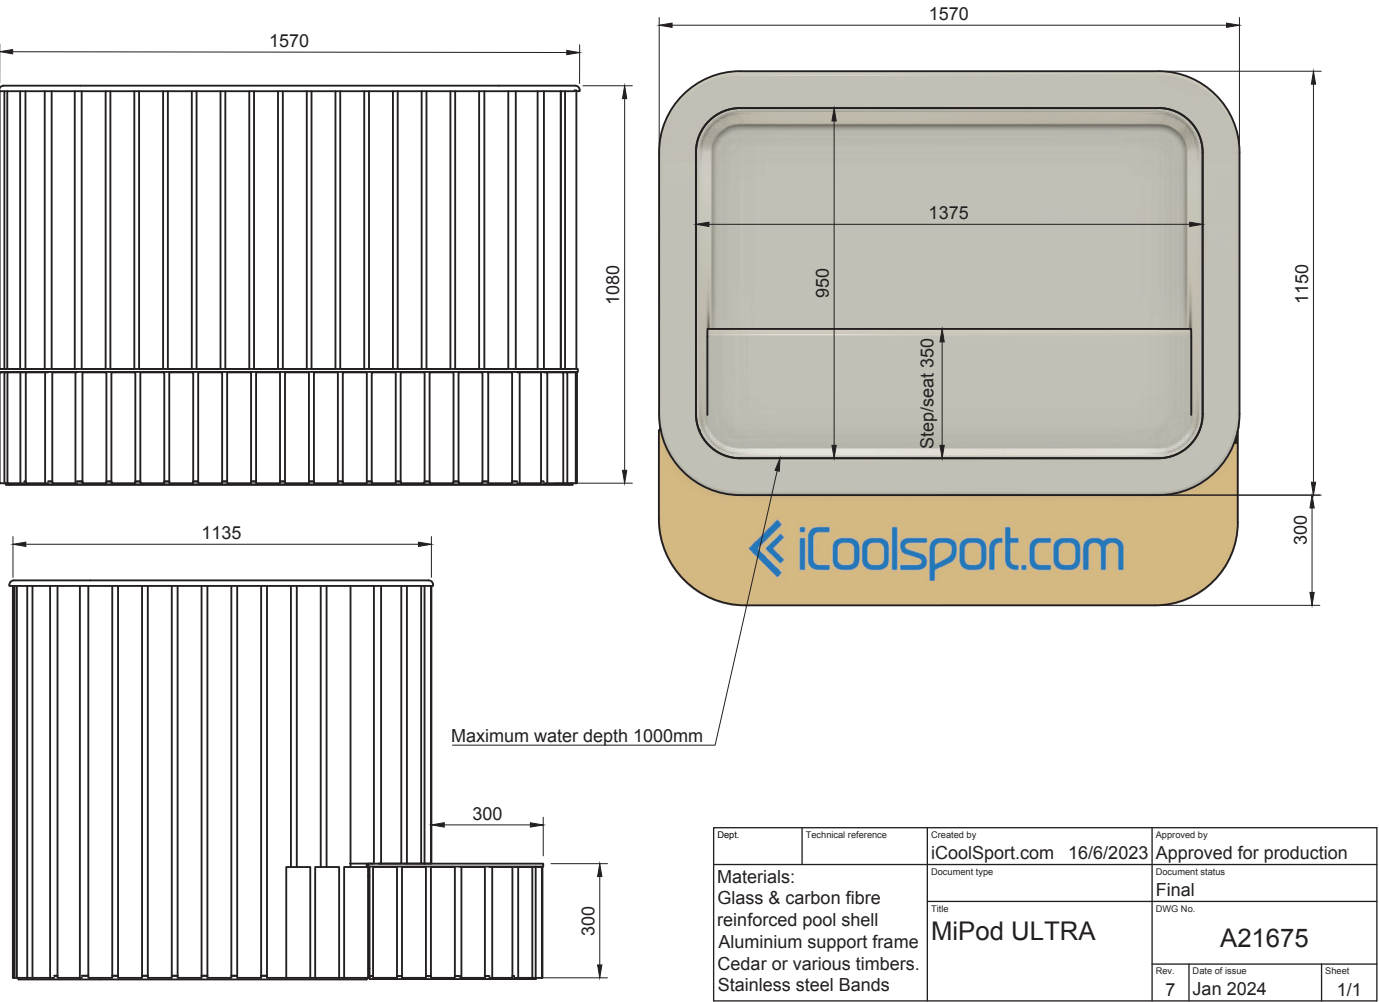

2: Most powerful available fast cooling Turbo chiller version where the chiller is placed in a different area, usually outside. (10,000 watt external machine).

Cold plus Hot reverse cycle versions of both chillers also available.

Absolute best in class Ultra smooth pool surfaces, hand moulded with no seams or joins for maximum comfort and cleanliness. Hand finished timber cladding or other cladding materials to match your room.

The ultimate experience in personal ice bath recovery for 1 to 4 people.
